**2. CIP 2017**

Coordinator was called to the BOS meeting on Tuesday, January 2<sup>nd</sup> for CIP ballot review. The BOS inquired as to why PARC had chosen the pavilions and hadn't gone forward with the previous Bolton request or boat ramp request where there were noted safety concerns in those two requests. It was explained that we *had* gone to CIP with the boat ramp request again, but didn't receive good feedback as to its survival through the remaining CIP course. Explained that when we present to the CIP committee they give their input as to whether the request will survive the additional committees. They felt that the Bolton project was getting stale and maybe we should present projects that would be more appealing to the voters. The boat ramp project that was presented twice received feedback that the numbers were potentially off and perhaps NH Fish & Game Department would have funds available to assist in the project in the future.
