-If you believe someone is stalking or following you, immediately go back in the store or building!

-Always have your cell phone close by in the event you need to dial **911**.

-Purposely set off your car's alarm to alert others, draw attention to yourself.

Interacting with Police

School Bus and School Zone Safety

The Weare Police Department wants to ensure the safety of your children by reminding you how to safely operate your motor vehicle when approaching a school bus or when driving within a school zone.

When entering a School Zone

SLOW DOWN!!! It is that simple; unfortunately, people do not follow speed limits within school zones. Drive as if there are always children present during school hours.

Please remember to always slow down, look for traffic signals/signs, reduce your speed, avoid passing other vehicles, and lastly never drop your kids off in the street

Dropping off in a School Zone

Do not- double park, it blocks visibility for children and vehicles.

Do not- load or unload children across the street from the school.

Do- Ensure your kids make it safely onto the sidewalk and are supervised.

Sharing the Road with School Buses

When you are driving behind a school bus, please leave at least 25 feet of following distance between yourself and the school bus. This allows you more time to stop once the yellow lights start flashing. The greatest danger presented while taking a school bus is when the students are approaching or leaving one.

Yellow flashing lights: indicates the bus is preparing to stop to load or unload children. Motorists should slow down and prepare to stop their vehicles.

Red flashing lights and extended stop arms: indicates the bus has stopped and children are getting on or off. Motorists must stop their cars and wait until the red lights stop flashing, the extended stop-arm is withdrawn, and the bus begins moving before they can start driving again.

Reminder:

According to NH RSA 265:60, In a posted school zone, at a speed of 10 miles per hour below the usual posted limit from 45 minutes prior to each school opening until each school opening and from each school closing until 45 minutes after each school closing.

Be alert, children are often unpredictable and they tend to ignore hazards and take risks. Expect the unexpected around a school bus, and be on alert for children!
